Lew Watts
President and CEO, PFC Energy

Lew Watts was appointed President and Chief Executive Officer of PFC Energy in September 2006. Lew joined the company in early 2006 as Head of Global Gas, bringing extensive executive-level knowledge of the strategic, commercial and execution issues associated with opportunities along the gas value chain, from upstream supply through to the end customer. He has some 30 years experience within the oil and gas industry ranging from Upstream, Gas & Power and the Service Industry.

Lew is a past Executive Director of Shell's Gas and Power business, where he was accountable for the development and governance of Shell's extensive gas and power businesses in Africa and South America. In this capacity, he oversaw the expansion of Nigeria LNG beyond the initial two trains and was the sponsor of the company's Atlantic Basin LNG strategy. Prior to this he spent over 20 years in Shell's Upstream business in a variety of global operational and commercial roles, culminating in his role as Vice President for global strategy and economics. Immediately before joining PFC Energy, Lew was a Senior Vice President with Halliburton Energy Services, responsible for strategy, research & technology, marketing, commercialization and pricing, as well as leading a group accountable for the development of winning bids for the largest, strategic tenders.

Lew graduated with First Class honors in geology from the University of Bristol and received a PhD from Reading University, both in the UK. He is a past Board member of Petroleum Development Oman (PDO) and various other companies and is life-member of the Institute of Directors. His passions in life are his wife and two sons, poetry and fly fishing.
